

GOPIKRISHNAN M

Full Stack Developer | AI-Assisted Software Engineering

Palakkad, Kerala | gopimathilakath@gmail.com | +91 9400702761 | [Portfolio](#) | [LinkedIn](#)

SUMMARY

Aspiring full-stack developer with hands-on experience building production-grade web applications using Node.js, React, and Python, and a track record of using AI tools to ship faster without sacrificing code quality. Currently pursuing an MCA specializing in AI & Machine Learning, combining strong software engineering fundamentals with a growing expertise in applied AI. Fast learner, quick to pick up new stacks, and driven to build efficient, real-world solutions.

SKILLS

Programming Languages: Node.js, React, Python, SQL, HTML, CSS, FastAPI, JavaScript, TailwindCSS

Databases: PostgreSQL, MongoDB, Supabase

Tools: Postman, VS Code, Cursor, Antigravity, NotebookLM

AI & LLM Tools: Claude AI, OpenAI, Prompt Engineering, LLM API Integration

Soft Skills: Teamwork, Quick Learner, Communication, Problem-Solving, Analytical Thinking

Languages: English, Malayalam

EXPERIENCE

Full Stack Developer —EUR Startup *Project: QuickRekrut (Jan 2026 onwards)*

- Built and integrated RESTful APIs using Node.js/Express with PostgreSQL, implementing complex SQL queries, Redis caching, and real-time data updates.
- Developed React (TypeScript) UI components with Redux Toolkit (RTK Query) for state management and cross-API cache synchronization.
- Implemented end-to-end features including AI-powered talent matching and shortlisting workflows.
- Diagnosed and resolved production bugs across the full stack — from database schema issues to frontend rendering inconsistencies.
- Leveraged AI tools to accelerate development workflows, delivering features faster while maintaining clean, readable code.
- Collaborated with the team using Git for version control and code review workflows.

Note: Intern turned fullstack developer.

PERSONAL PROJECTS

NearNest | *React, Node.js, Supabase, Groq AI*

- Developed a full-stack local business discovery platform with role-based authentication and an owner approval workflow.
- Integrated Groq AI (Llama 3.3) for natural language smart search and AI-powered review summarization.
- Deployed frontend on Vercel and REST API backend on Railway, backed by Supabase PostgreSQL — live at nearest-eta.vercel.app

RailwayReady | *React, Node.js, Groq AI*

- Fetches real news daily from The Hindu and PIB via RSS feeds and auto-generates 30 MCQ questions using Groq AI.
- Developed a performance analysis dashboard with accuracy tracking, weak topic identification, and wrong-answer review.
- Live at: railwayready.vercel.app

KHRA Membership Registration System | *React, Node.js, Python, Supabase, Tailwind CSS, HTML*

- Built and deployed a full-stack bilingual (Malayalam/English) membership registration portal for KHRA, enabling digital onboarding across 14 districts.
- Automated PDF generation with Python for form filling and cloud storage, removing manual paperwork.
- Integrated Supabase for real-time cloud database storage, replacing the association's manual registration process.

CERTIFICATIONS

- HTML, CSS — Udemy
- Node.js — Udemy
- N8N Automation Tool — Analytics Vidhya

EDUCATION

MCA — Artificial Intelligence & Machine Learning | Amrita Vishwa Vidyapeetham (Amrita University) | Self-Paced Online | Pursuing
BSc in Computer Science | College of Applied Science, Vadakkencherry (University of Calicut) | 2022 – 2025
